## MyWireframes and List of Website and Intended Purpose

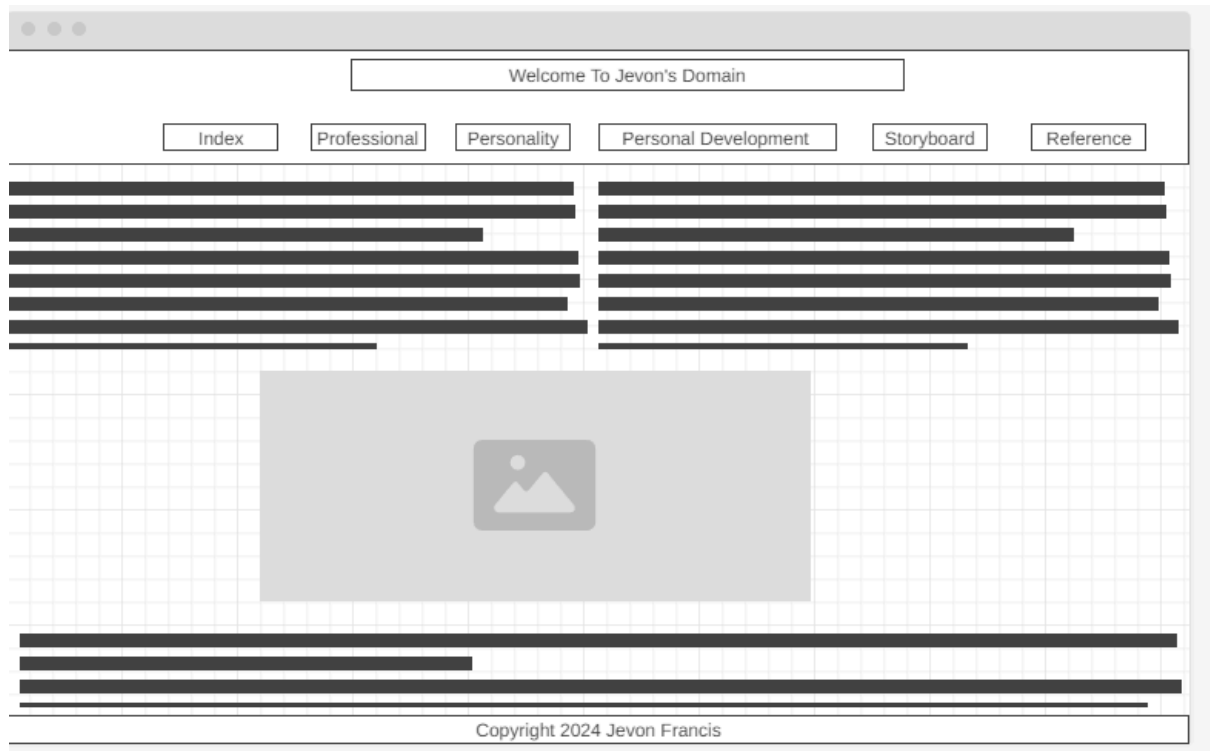

### Index Page

The purpose of the index page is to provide a brief description of myself along with a picture that can be clicked to send an email.

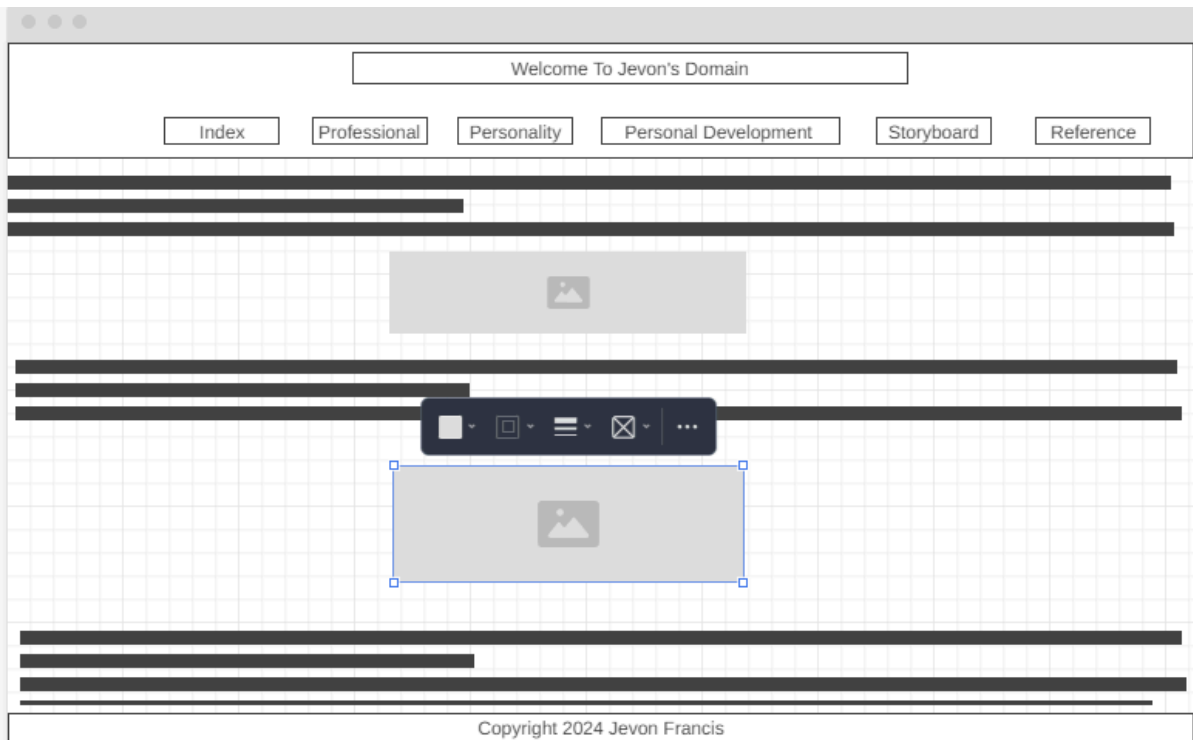

## Professional Page

The purpose of the professional page is to present my mission and vision statements, along with my resume, skills, job requirements, and qualifications.

## Personality Page

The purpose of the personality page is to state how my personal traits, emotions and hobbies influence my academic performance. It also aims to explore who inspires me and my personality trait based on an online assessment.

## Personal Development Page

The purpose of the personal development page is to summarize, reflect on what I read from the book and how I can apply it to my life. Another purpose is to state the name of my degree and skills I have acquired.

## Storyboard Page

The purpose of the storyboard web page is to link to the storyboard document.

**Reference Page**

The purpose of the reference page is to show all references to websites that helped me complete this project.

### **Theme of the Website**

The theme of my website features a light image background with black Arial font. It has a simple, clean design that makes it easy for readers to understand the purpose of each element. For my Personal Development and Personality pages, I switched the formatting and colors to give each page a fresh, distinctive look.
